As the fall approaches you're likely to see many spiders. Some scientists believe that spiders are more important than birds in controlling undesirable insects.

After capturing an insect, all spiders crush a portion of it in their jaws and inject it with a digestive juice. Then, they literally suck the carcass dry.

Most of the spiders work is done at night. We need to view him as an asset, not something to be destroyed.

It's time to think about seeding the lawn or reseeding bare or thin spots. The first step should be a soil test in order to determine the lime and fertility requirements.

Tall fescue does equally well in shade or sunny areas. If you like a little bluegrass with the fescue - up to 20% of the mix can be bluegrass.

If your choice is bluegrass, your choices of a high quality lawn are better if two or three bluegrass varieties are used. Acceptable bluegrass varieties are: Kenblue, South Dakota Certified, Merion, FylKing and Adelphi.

If you are seeding in a shaded area 20 % to 50% of the bluegrass should be either Pennlawn or Jamestown red fescue.

Never sow red fescue in an open area.

The quickest and most expensive way to get a lawn is to buy sod.

• • •

27%of the Virginias barley crop was seeded to Barsav in 1974, however, in the Southern Piedmont only 8 percent was in this variety. In the Southern Piedmont, Rapidan was the leading variety.

• • •

The 1974 Dairy Seminar will be held December 4 and 18 at Westover Dairy in Lynchburg. Dairymen should circle these dates and plan to attend. Programs will be distributed later.

• • •

Sheep numbers in Virginia appear to have stabilized. Cattle owners should seriously consider adding a flock of sheep to their operation.

Six ewes and their lambs can be kept on the same amount of feed as one beef cow and calf. This year three ewes will give about the same return as one cow. Remember, you can keep one ewe per cow without reducing the pasture for the cows - actually the pastures will be freer of weeds as a result of this practice.

• • •

If you're making corn silage and are seriously interested in planning a winter feeding program it's important to take silage samples at harvest time. Research shows that fermentation has little effect on dry matter and nutritive content. You should consider taking samples from several loads from a particular field or corn variety.

Improper stage of maturity or time of harvest probably remains our major problem in obtaining the potential feed value and yield that this important crop offers.

Chestnut Grove

The annual homecoming was held at Chestnut Grove Baptist Church of Appomattox, Virginia Sunday August 18th, 1974 at 11:30. Rev. K. W. Davis pastor was in charge of the morning worship. His choir was on stand for him. Prayer was led by Rev. D. Christian and scripture read by Rev. B. T. Christian.

The ladies of the church brought dinner to serve to members and friends.

The Rev. D. Christian was in charge of the evening services along with the senior choir from Mount Obey Baptist Church furnished special music. The service and music was greatly enjoyable.

The Building Fund Raising was well supported and the captain wishes to thank everyone for their help. Also thanks for such a fine revival.

Smokers May Kick Habit Through Five-Day Plan

Smokers who want to kick the habit will have their chance beginning September 8. A special Five-Day Plan will be conducted here by a team of experts.

The Plan consists of regular group therapy sessions, films, and a daily personal control program. The Five-Day Plan has successfully helped many people quit smoking during the past 12 years.

Conducting the program locally will be medical personnel and Pastor R. H. Brodersen who has held clinics for military personnel and civilians in Hong Kong and Taiwan before coming to Appomattox. Group therapy sessions will be held at 7:30 each evening beginning September 8 at the Seventh-day Adventist Church at Court and Short Streets in Appomattox.

Sponsored by the Appomattox Seventh-day Adventist Church as a community service, the Five-Day Plan aims to help improve the health of the community and to contribute to the national physical-fitness program, Brodersen explains.

Held successfully in cities all across the United States and Canada and in most countries of the world, the Five-Day Plan to Stop Smoking features such topics as the psychological and physical aspects of the habit, how craving can be lessened, how willpower can be strengthened, physical effects of smoking, organizations of a buddy system, and many other techniques designed to break the habit within the five-day period.

A feature will be the film "Countdown," depicting in full-color a lung cancer operation, to be shown Sunday night, the first evening of the therapy session.

For additional information, advanced reservations, and tickets telephone 352-7255 or contact the "Times-Virginian."

Appomattox Airman Hono

Airman First Class James D. Miller of Appomattox was recommended as Airman of the Month by his Officer in Charge at Kunsan Air Base, Korea.

Miller, a graduate of Appomattox County High School, is assigned to the Weapons Loading Section at Kunsan.

The recommendation read in part, "A1C Miller is assigned as #2 man on a weapons loading crew. He is a highly motivated young airman who may be relied on to promote harmony, instill confidence and accomplish the most difficult tasks with professionalism. Dedicated to the role he supports, he has instilled a deep sense of responsibility in his fellow workers. The performance of his flight line duties have always been exceptional. He is mentally alert and in full control of his faculties at all times. His real ability, along with his knowledge of the complex F-4D weapons systems and associated equipment, makes him a asset to this squadron."

The recommendation conclu-
